

Applied Instruction Facility

Fort Leonard Wood, Missouri

Principal-In-Charge:
Leonard Graham, PE

Project Manager:
Burrel Boley, PE

Construction Cost:
\$31 Million

Delivery Date:
December 1996

The Applied Instruction Facility at Ft. Leonard Wood involved construction of a \$31 million facility at three, separate locations: one for a mock village for training military police, one for training chemical school personnel in decontamination procedures and the other for a museum expansion.

Taliaferro & Browne provided site design and civil engineering services for all three locations as well as for grading, drainage, roads, parking lots, and utility connections to the facilities.
