The U.S. Disciplinary Barracks at Ft. Leavenworth project involved construction of a new, \$61 million facility that included the housing units as well as on-site perimeter patrol roads and parking facilities in addition to an energy center, a vocational training center, and an admissions and administration building.

Taliaferro & Browne, Inc. provided all site design and civil engineering services for the project, including designing an access road along with water, gas, and sanitary services to the site.
