

Butler Manufacturing Headquarters Building Kansas City, Missouri

PRIME CONSULTANT

Principal-In-Charge:
Leonard Graham, PE

Project Manager:
Kurt A. Mitscher, PE

Construction Cost:
\$23 Million

Delivery Date:
Dec 2001

The Butler Manufacturing Headquarters project involved:

- Construction of a new, 154,000-square foot, two-story office building, located in the historic Kansas City Stockyards
- More than 4,500 feet of storm sewers and combined sewer relocation
- 1,600 feet of new sanitary sewers
- 2,200 feet of new water mains
- 1,900 feet of commercial collector streets
- An extensive storm drainage study
- Analysis of the existing Kemper Arena Pump Station

Taliaferro & Browne was responsible for the grading and drainage plans, utility coordination and parking lot design. Additionally, we designed the storm sewers, sanitary sewers, new water mains, and commercial collector streets as well as conducting the storm drainage study and Kemper Arena Pump Station analysis.

Client:
Butler Manufacturing
