

# Downtown Bus Transfer Plaza

## Kansas City, Missouri

### PRIME CONSULTANT

Principal-In-Charge:  
Hagos Andebrhan, PE

Project Manager:  
Jim Tellson, PE

Construction Cost:  
\$3.8 Million

Delivery Date:  
1995

Kansas City's Downtown Bus Transfer Plaza was designed to provide a:

- Place for buses to pull off the street and allow other traffic to move freely through one of the City's busiest bus transfer points
- Common transfer point between Metro buses and demand response vehicles
- Comfortable passenger waiting area in a park-like setting by providing enhanced shelters surrounded by raised planters and trees

Taliaferro & Browne provided civil engineering, structural engineering, surveying, and construction administration for the project.
