**Taliaferro & Browne, Inc. Expands: New Headquarters in Central City**

(*Kansas City, MO*) Taliaferro & Browne, Inc. (T&B), one of Kansas City's leading civil engineering firms, has purchased and will soon occupy their newly renovated building at 1020 East 8<sup>th</sup> Street in the Paseo West Neighborhood of Kansas City, MO. The 20,000-square foot building, formerly home to Scott-Rice Office Works, will house T&B's engineering, planning, and landscape architecture professionals.

"With the steady growth we've experienced over the past decade, the time had come to look at a space that could truly serve the firm's long-range project needs," commented firm president Leonard Graham, PC. "With our inherent commitment to revitalizing the urban core, it only made sense to look at an area like Paseo West. We're excited to get in and start working to help enliven our new neighborhood."

T&B joins other noted leaders in KC's building industry, such as Mark One Electric and Zahner Sheet Metal, each of whom have made this area their home as well. Currently involved in the Paseo West Neighborhood Association as well as the Downtown Alliance and a key supporter of the neighborhood, interfaith ministry, reStart, Inc., T&B is already an active participant in the community. Renovation currently underway should accommodate the firm's early-summer, relocation plans.

*Taliaferro & Browne, Inc. is a Kansas City-based professional services firm specializing in infrastructure planning and development. In business since 1968, the firm provides first-rate civil engineering, structural engineering, landscape architecture, and land surveying for public works, transit/transportation, site development, and commercial land planning and development projects. Taliaferro & Browne has served as a prime consultant for a number of recent, high-profile projects, including the Sprint Center, Troost MAX, IRS Service Center, and Power & Light District.*
