

# Kansas City Star Production Complex Kansas City, Missouri

**Principal-In-Charge:**  
Hagos Andebrhan, PE

**Project Manager:**  
Bob Gregor, PE

**Construction Cost:**  
\$199 Million

**Delivery Date:**  
2006

The Kansas City Star Production Complex project involved construction of a 424,000 square foot building for The Kansas City Star, a Knight Ridder company, in downtown Kansas City, Mo. Today, this facility figures prominently in the downtown landscape with its transparent blue glass windows that allow the public to watch the printing presses in operation.

Taliaferro & Browne provided site survey and construction phase staking plus civil engineering on the project including: the site drainage study, demolition plans, utility abandonment plans, storm and sanitary sewer design, the design of public sidewalks and streets, and the design and layout of a new parking lot for Kansas City Star employees.

**Client:**  
The Austin Company

**T&B** Taliaferro & Browne, Inc.  
Engineering - Landscape Architecture - Surveying

818 Grand Boulevard, Suite 1000  
Kansas City, MO 64106
