

Performing Arts Center Kansas City, Missouri

Principal-In-Charge:
Leonard Graham, PE

Project Manager:
David L. Brackey, PE

**Projected
Construction Cost:**
\$405 Million

**Projected
Delivery Date:**
Late 2010

The Performing Arts Center project consists of a \$405 million, 285,000 square foot facility scheduled to open in late 2010. The Center will feature a 1600-seat concert hall and a 1800-seat proscenium theatre. Additional amenities will include restaurants, lobbies, and an adjacent, underground parking garage for 1000 cars.

Taliaferro & Browne is providing civil engineering services for the center, including preliminary and final site grading, design of entrance drives and patron drop-off areas, a storm water study, drainage and storm water detention design, erosion control and land disturbance plans, and associated LEED compliance. In addition, we are providing civil engineering services for the reconstruction of the adjacent Wyandotte Street.
