

Survey 101 Presenters

BOB GREGOR, PE — SENIOR PROJECT MANAGER

B.S. in Civil Engineering, Purdue University, West Lafayette, IN

Professional Registration: KS

Bob Gregor has 20 years of experience in civil engineering design and has been with Taliaferro & Browne for 15 years. He has served as project manager on a number of high-profile, recent projects, including the Power & Light District, Kauffman Stadium Expansion and Rehabilitation, and Kirkwood Luxury Condominiums.

Bob has also served as project civil engineer on the Internal Revenue Service Processing Center, the New Life Sciences Building, University of Missouri, and the Kansas City Star Production Complex.

KURT A. MITSCHER, PE — SENIOR PROJECT MANAGER

B.S. in Civil Engineering, University of Kansas, Lawrence, KS

Professional Registration: KS, MI

Kurt Mitscher has more than 20 years of experience in civil and structural engineering design and has been with Taliaferro & Browne for a decade. His experience includes roadway and parking lot design, facility layout, earthwork and grading, utility layout and design, storm and sanitary sewer design, water main design and site investigations and construction inspection. Kurt has served as Project Manager for projects as diverse as the Plaza Colonnade Building, the Truman Sports Complex improvements, Beacon Hill Redevelopment, and the Central Industrial Storm Sewer Project.

DONALD W. KOZEL, PLS — SURVEY DEPARTMENT MANAGER

N.E. Community College, Norfolk, NE

Professional Registration: MO, KS

Mr. Kozel has over 30 years' experience in land surveying for residential developers, commercial developers, municipalities, state and county agencies, and the Federal government, including the Soil Conservation Service in Missouri and Kansas and the Federal Emergency Management Agency. Mr. Kozel's substantial "hands on" experience and familiarity with proper data collection procedures provide invaluable leadership Taliaferro & Browne data collection teams.

Don is responsible for the supervision of all field activities associated with land surveying, including the collection of relevant project information. His responsibilities include preparing proposals, budgets, and schedules for topographic and boundary surveys in connection with building improvements of all types, highways, streetscapes, bridges, sewers, and water projects throughout Kansas and Missouri.

JOHN MCKEAN, RLS — SURVEYOR

Professional Registration: KS, MO

John McKean has more than 35 years of surveying experience and is a licensed surveyor in both Kansas and Missouri. His primary expertise is in the development of boundary surveys. Mr. McKean is skilled in the research of city and county deeds, easements, ordinances, and other pertinent survey documents. He is experienced in the use of AutoCAD Land Development and is proficient in the use of Trimble GPS surveying systems, Sokkia Total Stations, TDS software, and Carlson Data Collectors.

Mr. McKean's recent project experience includes: Three Trails Redevelopment, I-29/I-35 Interchange, Samuel Rodgers ALTA Survey, 1st and 2nd Creek Boundary Surveys, 1st and 2nd Creek Force Main, Colorado Avenue Bridge, Red Bridge Road.
