

# Trolley Track Trail Phase IV Kansas City, Missouri

## PRIME CONSULTANT

Principal-In-Charge:  
Leonard Graham, PE

Project Manager:  
Bob Gregor, PE

Construction Cost:  
\$600,000

Delivery Date:  
2003

The Trolley Track Trail - Phase IV project involved design for:

- Completion of the 6.5-mile walking/cycling trail with an asphalt-paved, 1.8-mile section through a mix of urban and suburban areas
- A mid-block traffic signal to link the final two phases of the Trolley Track Trail across a four-lane street
- Three parking areas
- Landscaping
- Several additional street crossings
- Fencing
- Extensive signage
- Pedestrian rest areas

Taliaferro & Browne, Inc. provided civil engineering and surveying services that included site work, dry-laid retaining walls, grading, paving, and cost estimating. We also participated in several informational meetings with area community groups and homeowners' associations.
