

# Turtle Hill Townhome Redevelopment Kansas City, Kansas

**Principal-In-Charge:**  
Leonard Graham, PE

**Project Manager:**  
Michael Nosseir, PE

**Construction Cost:**  
\$6 Million  
(townhomes)

**Delivery Date:**  
2002

The Turtle Hill project, located in the urban core of Kansas City, KS, involved design and construction of 58 town home units characterized by an exceptional layout, new infrastructures, accessibility, and appearance. This project was the first of its kind in Kansas City, KS, and was concurrently constructed with the Turtle Hill Redevelopment Phase II for a total cost of \$12 million.

Taliaferro & Browne provided all surveying and civil engineering services as well as master planning, preparation of construction documents, and construction inspections. Civil engineering included design for major underground storm detention facilities, storm and sanitary sewers, water lines, underground power lines, parking lots, sidewalks, driveways, curbs, and site grading.
